## End of Life Announcement: 201M, 201T and 301M Series

Regions Affected: **All**

Dear Colleagues;

This announcement is to alert you of our intent to discontinue the 201M, 201T and 301M Vulcain product lines. Honeywell Analytics will continue to supply spare parts and service for these products for 24 months after they are withdrawn from the market or for as long after that date as supplies of inventory remain.

### Discontinued Product Lines:

- **201M:** Stand-Alone Gas Monitor
- **201T:** Gas Detection Transmitter
- **301M:** Stand-Alone Single and Dual Gas Monitor

### Effective dates for this announcement are:

- Immediate Discontinuance of 301M due to lack of parts availability.
- Expected date of withdrawal February 5, 2010; 201M & 201T.
- Date for last time buy is February 5, 2010; 201M & 201T.

We are providing advance notice of our intent to discontinue these product lines to allow time to determine the most optimum migration path for each situation. The following products are available as replacement:

- **E<sup>3</sup>Point: Toxic and Combustible Gas Monitor (new product)**
  - Visit the following website for more information on this exciting new product offering from Honeywell Analytics: [www.e3point.com](http://www.e3point.com).
- **301RLC: Refrigerant Gas Detector (existing offering)**

Any questions should be directed to your Regional Sales Manager or me.

The following tables are a comprehensive cross reference list for these discontinued products and their respective replacement products.

Regards,

Donald J. Olson  
Product Manager, Commercial Products
