Product Overview
Honeywell Gas detection offers a range of portable products featuring intuitive user interfaces, single button operation, affordability and incredible ease of use as standard, helping to minimise training requirements and ongoing costs.

**Portable Gas Detection**

- **GasAlertMicroClip Series**
  - Rugged, ultra-compact, lightweight continuous monitoring of up to 4 gas hazards. Available in 2 versions, XT and XL

- **BW Clip**
  - No-maintenance device offering continuous, detection; 2 and 3 year versions available

- **GasAlert Extreme**
  - Reliable single-gas monitoring with a wide variety of toxic gases supported

- **GasAlert XT II**
  - Multi-gas detector with simultaneous monitoring of up to 4 gas hazards

- **GasAlertMicro 5**
  - Continuous monitoring of up to 5 gas hazards at an attractive price point

- **GasAlertMicro 5 IR**
  - Continuous monitoring of up to 5 gas hazards with a wide selection of toxic gases supported

- **GasAlertMicro 5 PID**
  - Water and impact resistant continuous monitoring of up to 5 hazards

- **Sensepoint XCD**
  - Flammable, toxic and Oxygen transmitter and sensor with tri-colour display for viewing status from a distance

- **Searchline Excel**
  - World-renowned open path IR detector with 200m dynamic monitoring range

- **MicroDock II**
  - Quick, cost effective automatic bump testing of the GasAlert range of portable gas detectors

- **IntelliDoX**
  - Combines smart docking modules and Fleet Manager II software to provide automated instrument management for the BW Clip

- **Impulse XT**
  - A single gas detector with 2-year, always-on operation, durable IP67 casing and Real Time display option

- **Enforcer**
  - Quick, automatic calibration of Impact Pro for the cost of a bump test

- **GasAlertQuattro**
  - Feature-rich multi-gas device with simple one-button operation

- **Colorimetric Gas Detection Tubes**
  - For quick, on-the-spot, compound-specific measurement of a wide range of toxic and combustible gases and vapours

- **MeshGuard**
  - Networkable wireless gas monitoring solution designed for quick deployment in areas where low cost/high ROI solutions are required

- **Enforcer**
  - Quick, automatic calibration of Impact Pro for the cost of a bump test

- **RAEguard 2 PID**
  - Fixed photoionisation detector (PID) that measures a broad range of volatile organic compounds (VOCs)

- **Colorimetric Gas Detection Tubes**
  - For quick, on-the-spot, compound-specific measurement of a wide range of toxic and combustible gases and vapours

- **Impact Range**
  - High specification device capable of monitoring 4 gases simultaneously

- **NEW**

---

**Fixed Gas Detection**

Our range of fixed gas detection equipment features a variety of options suited to all types of application and industries.

- **Searchpoint Optima Plus**
  - Market leading point IR detector with 100 gases available. Optional HART® over 4-20mA output

- **Signalpoint Range**
  - Low cost range of flammable, toxic and Oxygen gas detectors

- **RAEGuard 2 PID**
  - Fixed photoionisation detector (PID) that measures a broad range of volatile organic compounds (VOCs)

- **Series 3000 MkII**
  - 2-wire loop powered toxic and Oxygen gas detectors for use in potentially explosive atmospheres

- **Searchpoint XCD RTD**
  - A gas transmitter for use with directly or remotely mounted flammable gas sensors

- **HALO LED Junction Box with optional HART® Port**
  - For use with Searchpoint Optima Plus delivering a local display and visual device status. Non-intrusive interaction with the HART®-enabled model variant

- **Sensepoint XCD RTD**
  - A gas transmitter for use with directly or remotely mounted toxic and Oxygen gas sensors

- **NEW**

**Honeywell Analytics**

Experts in Gas Detection
Controllers
(Fixed and Toxic)

Our selection of controllers offer flexibility and a modular approach that allows you to meet the individual requirements for your specific site.

- **Touchpoint Pro**
  - The most flexible and versatile gas and logic control system on the market

- **System 57**
  - Precision controller accepting inputs from toxic, flammable, Oxygen, flame, smoke and heat

- **Touchpoint 1**
  - Flammable, toxic and Oxygen controller for use with the Sensepoint range of gas detectors

- **Unipoint**
  - DIN rail mounted controller offering flexibility at low-cost

Fire and Flame Detection

Our range of fire and flame detectors provide a variety of options suited to diverse applications and industries.

- **FS24X**
  - Multi-Spectrum QuadBand Triple IR Fire and Flame Detectors with the highest fire detection performance and optimal false alarm rejection

- **SS2**
  - Multi-Spectrum Digital Electro-Optical Flame Detectors with ultra-high speed responses to explosive fires

- **FS20X**
  - Multi-Spectrum UV/Dual IR/Vis Fire and Flame Detector with UV solar-blind sensor

- **SS4**
  - Leading edge UV and UV/IR Electro-Optical Digital Fire and Flame Detectors

- **SS3**
  - Fast reacting Digital Multi-Spectrum Electro-Optical Fire and Flame Detectors

- **FS7**
  - Electro-Optical Fire and Flame Detector specifically for semiconductor clean room fire protection applications

- **FS10**
  - Multi-spectral digital electro-optical Infrared fire detector specifically for liquid and powder coating applications

Hi-Tech Gas Detection

For semiconductor fabs, photovoltaics manufacturing, laboratories and other applications such as foaming facilities and aerospace where low levels (ppb) of toxic and flammable gas need to be detected.

- **Satellite XT**
  - Small and compact toxic gas detection with a wide range of sensors

- **Sat-Ex**
  - Comprehensive monitoring of corrosive, combustible and toxic gases in potentially explosive atmospheres

- **CM4**
  - Low cost, continuous monitoring of toxic gases on 4 points with minimal maintenance required

- **LeakFilm**
  - Liquid leak detection system that uses unique liquid-sensing film that can be networked into broader building alarm systems

- **Vertex M**
  - Cost effective, 8-24 point toxic gas monitoring with physical evidence of a leak

- **SPM Flex**
  - Using Chemcassette® tape technology, it is both a fixed and a portable unit; detecting ultrasensitive gases including hydrocarbons, mineral acids and amines

- **SPM Single Point Monitor**
  - A fast response device detecting in the ppb range with physical evidence of a leak

- **Vertex™**
  - Flexible device providing continuous monitoring of up to 72 points

- **Midas®**
  - Sensitive detection using smart sensor cartridges and Power over Ethernet (PoE)

- **Chemcassette®**
  - Calibration free toxic gas detection with physical evidence of a leak

- **ACM 150**
  - Versatile and sensitive detection of up to 40 points with many gases available
At Honeywell Analytics, we put our customers first. We believe in delivering end-to-end customer service and support, which means every customer gets the help they need, when they need it.

Our full range of service and support options includes:
- Commissioning
- Ongoing care of your equipment
- Rapid response and support when you need it
- Training

When you work with Honeywell, you also get our in-house expertise:
- Certifications and standards team
- Application specialists experienced in your industry, applications and processes
- Quality assurance teams
- Centralised customer support
- Local customer support
- Product management teams
- Bespoke engineering teams
- Expert trainers

Residential properties are susceptible to toxic and flammable gas hazards and our range of gas detection solutions offers protection and peace of mind in the home, on holiday or whilst undertaking leisure activities such as caravanning.

**X-Series CO Range**
Battery powered CO alarm range offers a 7 or 10 year maintenance-free lifetime. Three models provide different display options designed to enhance safety in critical situations, including a patent pending alarm evacuate visual indication.

**SF340 Series**
A range of reliable, hard-wired CO alarms with battery backup.

**EzSense**
A pen shaped portable flammable gas detector ideal for the detection of hazards from pipes, fittings, valves and hot water heaters etc.

**HF500**
Hard-wired flammable gas alarms for the detection of Natural Gas/Methane and LPG (Liquefied Petroleum Gas).
