AirScan™ IR-F9 New Gas Release

Regions Affected: **Global**

Dear Customers and Colleagues

We are pleased to announce the release of three (3) new refrigerant gas calibrations for the AirScan IR (IR-F9) detector. The new sensors detect the following gases: R-514A, R-1233ZD and R-1234ZE.

As the Environmental Protection Agency (EPA) phases out older refrigerants, we are also introducing new components to detect the more environmentally friendly gases.

The replacements refrigerants are as follows:

Old Refrigerants	Replacements
R-123	R-514A and R-1233ZD
R-134A	R-1234ZE

The following tables are categorized based on enclosure style; Commercial, Painted Steel (NEMA), and Stainless Steel
