A whole new control experience
Touchpoint™ Plus

**Touchpoint Plus** brings a whole new control experience to your small system of gas detectors. **Touchpoint Plus** is an easily configurable, wall-mounted control system that supports up to 16 gas detection channels. Its modular approach enables you to take control and configure what you need for a wide range of applications.

**Delivering Reliable Control**
- Honeywell reliability from the most trusted experts in gas detection
- Built-in battery backup for constant uptime
- Robust, shockproof housing for a wide range of industrial environments

**Flexible Capabilities**
- Compatible with the full range of Honeywell gas detectors
- Powered audiovisual alarms simplify field installation
- Configuration includes easy grouping and voting alarm logic without specialist knowledge
- Next-generation compatibility
- Optional Modbus output for integration with a higher level system

**Providing Ease and Efficiency**
- Quick and easy installation, configuration, setup, and maintenance
- Easy diagnostics, data, and reporting
- Minimum training time
- Large color touchscreen LCD
- Multilingual functionality
- Green-yellow-red status at a glance

The signature feature of the Touchpoint line is a user-friendly touchscreen interface, which the **Touchpoint Plus** takes to a new level. With this unique interface, it’s easier than ever to see the status of your system at a glance – maximizing the time you have to make the right decisions. The intuitive, multilingual interface simplifies operation and reduces training requirements. The full-color stoplight-style status indication provides clarity from a distance too.

**Touchpoint Plus** features a comprehensive set of outputs as standard, including common alarms and dedicated drives for remote audiovisual indicators. Its modularity enables you to customize your system to meet your specific application requirements. Selecting the right detector for use with your controller can deliver significant savings in startup costs and ongoing operations. Our global partner network and dedicated application specialists are able to help you make the right choices for your industry.

With everything at your fingertips, you can take ownership of your system and operate it with confidence, helping to ensure the safety of your people and the productivity of your site.
Unique User Experience
Taking the user experience to a whole new level

Want to fully utilize your controller? Built for ease – so you can operate it with confidence

Want peace of mind? Engineered to the highest standards of quality and reliability

Want a simple end-to-end solution? Easy ordering, installation, and servicing from the gas detection experts

Want to make fast, informed decisions? System status at a glance when time is critical

Want to know what’s going on? View real-time and historical data, analyze readings, and much more

Want to simplify system setup? With the intuitive, ergonomic touchscreen, setup couldn’t be easier

Large color touchscreen LCD with multilingual options
Built-in sounder
Clear common status indicators (green, yellow, red)
Individual channel status indicators (green, yellow, red)
Mute/Reset
Honeywell Analytics’ one system solution to meet your safety requirements

Touchpoint™ Plus provides a reliable safety solution for small-scale gas detection systems across a wide range of applications and industries. If you need to integrate your gas detection with a higher-level management system, the Modbus output option makes this straightforward.

As the heart of your gas detection system, Touchpoint Plus is designed to work with Honeywell’s industry-leading gas detectors and drive actuators, and audible and visual alarms to provide a complete end-to-end solution that you can configure as your own.

TYPICAL EXAMPLE OF A SMALL GAS DETECTION SYSTEM USING TOUCHPOINT PLUS
Designed for Speed and Reliability

Made of high-impact polymer plastic, Touchpoint™ Plus is versatile and durable. It is dustproof and waterproof, and has been tested to withstand the toughest operating environments, both indoors and out. So you can count on the Touchpoint Plus to stand up to the challenges of industrial environments, from mechanical rooms to chemical plants.

Touchpoint Plus is supplied with pre-drilled and sealed cable entries and a unique tiered internal arrangement providing ease of access to save installers time and money.

System Configuration Options

Provided As Standard
- Dedicated powered audiovisual alarm drives
- Common alarm outputs, one for fault and two configurable
- Datalogging to SD card
- Remote reset and inhibit inputs

Options
- Choice of AC or DC supply voltage
- Optional backup battery
- Choice of inputs: 2, 4, or 8 mA; 2, 4, or 8 mV; 2 mA and 2 mV; 4 mA and 4 mV
- Optional expansion unit for up to 16 inputs
- Choice of 12 or 24 relay outputs
- Choice of 4 or 8 mA outputs
- Optional RS485 Modbus RTU
- Optional TCP/IP Modbus/HTTP

1. Main module
2. Input module
3. Relay output module
4. mA output module
5. Power supply
6. Display module
7. Touchscreen
8. Backup battery
9. Modbus TCP/Web
10. Modbus RTU
Quick and easy installation – designed to save you time and money

Touchpoint™ Plus can be directly wall-mounted, or, for an easier 1-man installation, simply use the optional mounting plate. Open the hinged front cover to find plenty of space for wiring and a unique tiered terminal arrangement for easy access. Cable entries are pre-drilled and sealed ready to use reducing installation time and cost further.

Sensor Connection – Compatible with a wide range of field devices

Note: Other field devices available on request. Some devices are not available in all regions.
**GENERAL SPECIFICATION**

### Capacity
Up to 8 channels with base unit, up to 16 channels with expansion unit.

### Input Type
2- or 3-wire, mA, mV, max. 15 W per channel, max. 40 W total (with dedicated A/V drive); 68 W total (without dedicated A/V drive).

### Size (Wall-Mounted Version)
426 mm × 300 mm × 156 mm (16.8” x 11.8” x 6.1”)

### Housing Material
Polycarbonate ABS

### Weight
Max. 8.5 kg (18.7 lb), max. 17 kg (37.4 lb) with expansion unit.

### User Interface (UI) - Controller Only
**Display**
7” color LCD touchscreen. Graphic User Interface

**Visual Indicators**
3 LEDs for master indicators. LED for each channel. Green: Normal; Yellow: Fault; Inhibit; Red: Alarm

**Audible Alarm**
≥ 70dB @ 1 m (3.28 ft)

**Button**
Common for reset/mute operation

**Language**
English, French, German, Italian, Dutch, Spanish, Portuguese, Russian, Chinese

### Power Supply*
**AC Power**
110/220 VAC, 50-60 Hz Manual switching

**DC Power**
18 to 32 VDC (+/-10%) Typical 24 VDC

**Power Consumption**
Max. 105 W (including detector and external devices), max. 210 W with expansion unit

### Environmental
**Operating**
-10 °C to +55 °C (14 °F to +131 °F) continuous, up to 95% RH (non-condensing), IP65, and NEMA 4X

**Storage**
Instrument -25 °C to +60 °C (-13 °F to +140 °F), up to 95% RH (non-condensing)

### Available I/O Modules
**4-20mA Input**
2- or 3-wire, 2/4/8 channel modules, 10/12/16 with expansion unit

### Available I/O Modules (continued)
**mV Input**
Catalytic-type flammable gas detectors (Honeywell models). 2-/4-/8-channel modules, 10/12/16 with expansion unit

**Dual Input**
2-channel mA + 2-channel mV module or 4-channel mA + 4-channel mV module

**Relay Output**
12 or 24 relay outputs, NO/C/NC changeover, 1.7 A @ 30 VDC/250 VAC, user-configurable - energized/de-energized, latching/non-latching, time delay

**4-20mA Output**
4 or 8 isolated repeated mA outputs, 0-22 mA, 0-100% FSD = 4-20 mA

**Common Inputs**
Remote reset, remote inhibit

**Common Outputs**
4 powered A/V outputs for alarms and fault, 3 common alarm outputs

### Approvals
**Electromagnetic Compatibility and Electrical Safety**
EMC/RFI (EN 50270:2015), LVD (EN 61010-1:2010), CSA-C22.2 No. 61010-1-04, UL 61010-1 (3rd Edition) and 508

**Performance**

**Safety Integrity**
IEC 61508:2010 Ed.2 SIL2, EN 50271:2010

**Hazardous Location**
Class I, Division 2, Group A, B, C, and D, or non-hazardous only

**Marine**
MED (Item No.: 3.54)

### Others
**Backup Battery**
22.2 V Lithium Ion Battery, 2600 mAh capacity (>30 minutes for typical system)

**Datalogging**
Configuration, logged events, and data

**Communication**
MODBUS TCP, WEB monitoring, and MODBUS RTU

---

### Future Use
**Input Option**
A: 2ch mA Input
A4: 4ch mA Input
A8: 8ch mA Input
V: 2ch mV Input
V4: 4ch mV Input
V8: 8ch mV Input
D: 2ch mA + 2ch mV Input
DB: 4ch mA + 4ch mV input

**Relay Option**
S: 12 Relays
D: 24 Relays
N: No Relays

**Communication**
R: MODBUS TCP+WEB(read)
T: MODBUS TCP

**Battery**
B: Backup Battery
N: None

**Ordering Information**

---

* Basic and expansion units each require a power supply
** Not available in expansion unit
